

# Broadband in Blockley

## Fibre Broadband is coming... but not for everyone

For many in the village, fibre broadband should be a reality by the end of March 2016, and possibly even by the end of December this year.

But if you live in the red area on this map, there is no guarantee that you will get fibre broadband at all, even when the rest of the village has been connected.

The area affected includes the High Street, Dovedale, School Lane, Chapel Lane, Days Lane, Brook Lane, Donkey Lane and parts of Greenway and Bell Bank.

For more information, and suggestions about what might be done, go to
